H Jim and Curtis

Please take a quick look at the third attachment, the one that is a spreadsheet printed on its side. It describes the BDCP cash flow from now until we run out of money next sept/Oct.

Basically what it shows is that the SWP paid its share in full, and early while the CVP runs out of money and borrows from the SWP until the CVP can replenish its funds, which it does twice over the term of this spreadsheet.

The problem lies at the end of the spreadsheet when the CVP side doesn't have enough to make up its shortfall.

Chuck and Dan Nelson are working on a fix, but for now it is unresolved. As I understand it this will be discussed at the next Business Committee meeting

Brent
