

Groundwater Exchange Webinar

SGMA Review: Achieving Groundwater Access for All & Visual Data Tool Demonstration

CivicWell and the Groundwater Exchange are excited to announce a webinar event to share the Groundwater Leadership Forum's comprehensive review of groundwater sustainability plans to protect users' access to groundwater. This webinar will provide an overview of the analysis of the plans and information about how the plans fail to protect groundwater for many. The webinar includes brief presentations, a live demonstration of an interactive visual data tool, and will follow with a Question and Answer session.
