

Sacramento-San Joaquin Delta NHA Management Plan Advisory Committee meeting

The National Heritage Area Management Plan Advisory Committee (NHA Advisory Committee), a 15-member volunteer body that provides the Delta Protection Commission and a Commission subcommittee with recommendations on the development of the Delta National Heritage Area Management Plan, will be meeting virtually on Thursday, July 1, from 3:00 p.m. to 5:00 p.m.

The July meeting agenda includes an update on NHA advisory task groups, NHA visioning session, and federal funding and work plans. For more information, visit the [National Heritage Area webpage](#) and see the [NHA Advisory Committee meeting agenda \(PDF\)](#) for details on joining online or by phone.

Notice of public hearing and adoption meeting

On July 15–16, 2021, the Delta Stewardship Council will conduct a [two-day remote-access public meeting](#) to conduct a hearing and consider the adoption of a Staff Draft Determination and make its findings on the appeals of the Certification of Consistency for the Lookout Slough Tidal Habitat Restoration and Flood Improvement Project (C20215), pursuant to Water Code section 85225.25.

Delta summer programs for kids

Several day camps and summer programs for children in the Delta still have space available for participants. These programs focus on many themes related to the Delta region, including history, science, and aquatics.

[Sacramento History Museum's History Camp](#): The Sacramento History Museum is offering in-person camps for ages 6–13 with different themes, including "Gold Rush Boom Town," "Life Long Ago," and "Raise the City: STEM History."

[Yolo Basin Foundation's Summer Camp](#): This camp is for students entering 1st through 6th grades and provides opportunities to discover the science and nature of local wetlands up-close and in-person. Campers will perform experiments, play games, create art, and more in the Yolo Bypass Wildlife Area demonstration wetlands.

[Delta Kayak Adventures](#): Offering several River Camps for Kids throughout the summer.

June issue of Estuary News Magazine released

Looking deeper and making tweaks are the themes of [this issue](#), as San Francisco Estuary managers and scientists scrutinize their options and check their restoration work in light of a drier, hotter, and more hungry future. This June, Estuary explores how Bay fish aren't getting any cleaner despite chemical bans, how Delta fish are still hungry but food may lurk in the shipping channel, and the mechanics of delivering more mud to marshes that need to adapt to sea-level rise.

State and federal agencies fund new Delta science research

The Delta Stewardship Council and the U.S. Bureau of Reclamation are pleased to [award over \\$10 million](#) to fund 16 critical scientific studies in the Sacramento-San Joaquin River Delta and Suisun Marsh over the next three years.
